DRIVING
COALITION**

May 15-16, 2019

WHAT IS TRACS?

- Traffic and Criminal Software
 - Installed on over 19K officer laptops (~54%)
 - Software used in the field by law enforcement to collect data
- Paid for w/ federal flow thru funds from NHTSA (405 funds received by FDOT)
 - Funding voted on by Traffic Records Coordinating Committee (TRCC)

BETTER DATA, SAFER ROADS

- The purpose of this presentation is to inform the Florida Impaired Driving Coalition members of who we are and what we are doing
- In Florida, impaired driving is involved in about one-quarter of all motor vehicle deaths
 - While TraCS is primarily a crash and citation system, we collect data on most forms used by law enforcement, many of which contain data related to alcohol and drug use while driving
- There may be an opportunity to enhance and expand data collection in the field at the officer level so that decision makers have the data they need

WHAT LE FORMS PERTAIN TO IMPAIRED DRIVING?

- DUI Citation
- Impaired Driving
- Refusal to Submit
- Uniform Traffic Citation
- Boating Citation
- Crash
- Offense/Incident
- Arrest

READ THE FOLLOWING:

Will Defendant Take the Test?

READ THE FOLLOWING:

If you fail to submit to the test I have requested of you, your privilege to operate a motor vehicle will be suspended for a period of one (1) year for a first refusal, or eighteen (18) months if your privilege has been previously suspended as a result of a refusal to submit to a lawful test of your breath, urine, or blood. Additionally, if you refuse to submit to the test I have requested of you and if your driving privilege has been previously suspended for a prior refusal to submit to a lawful test of your breath, urine, or blood, you will be committing a misdemeanor [per Florida Statute 319.1939]. Refusal to submit to the test I have requested is admissible into evidence in any criminal proceeding.

(CDL HOLDER ONLY): Additionally, as a holder of a Commercial Driver's License or were operating a commercial motor vehicle, a refusal to submit to a lawful test of your breath, urine, or blood, will result in disqualification of your commercial driver's license privilege for a period of one(1) year in the case of first refusal or permanently if your privileges have been previously disqualified as a result of a refusal to submit to a lawful test of your breath, urine, or blood?

Do you still refuse to submit to this test, knowing that your driving privilege will be suspended for a period of at least one (1) year and that you may be charged criminally for any subsequent refusals?

or affirm that on or about the _____ day of _____, _____, at 11:59 AM

DRIVER _____
(Type or Print) FIRST MIDDLE OR MAIDEN LAST

DL # _____, state of _____, appeared for treatment at a hospital,

That on or about the _____ day of _____, _____, at 11:59 AM
in _____ County,

I requested that the driver submit to a **blood test** to determine his or her blood alcohol level and/or the presence of chemical or controlled substances in his or her blood. I informed the driver that refusal to submit to a blood test would result in the suspension of his or her driving privilege for a period of one (1) year for a first refusal, or for a period of eighteen (18) months if his or her driving privilege had been previously suspended for refusing to submit to a breath, urine, or blood test. I also informed the driver that if he or she holds a CDL, or was operating a CMV, refusal would result in the disqualification of the Commercial Driver's License/driving privilege for a period of one (1) year in the case of a first refusal or permanently if he or she had been previously been disqualified as a result of a refusal to submit to a breath, urine, or blood test. The driver nonetheless refused to submit to a blood test.

SIGNAL FOUR ANALYTICS

- Maybe one day we can see our DUI's on this map!

DUI PACKET

- TraCS would like to build the DUI Packet
 - The DUI Packet from FHP is approved by the judicial circuits, so modifications to the print out probably should not be made
 - Are there additional data elements beyond that we should collect, just not print on the “official” packet?
 - Should we keep existing fields as is, or modify existing?
